Mr. Lane Ringle
7111 Hogan Road
Fenton, MI 48430

RE: Randy Christensen Engineering plans, Job #Lane for a 11.24 acre parcel located on Bull Run Road in Unadilla Township, Section 3, Soil ID# PSEV2018-00243.

Dear Mr. Ringle:

Preliminary septic system drawings have been submitted and reviewed for the above referenced property. These plans detail an acceptable area for the installation of a residential modified mound to serve the homes waste water disposal needs. A copy of these drawings will be placed in our files as "**approved**". However, further information is required prior to the issuance of permits.

Issuance of any permits will be contingent upon:

- 1) Final engineer drawings.
- 2) Site inspection by Sanitarian to verify that the septic area (both active and reserve) has been properly roped off (i.e. snow fence) to avoid any/all vehicular traffic.
- 3) Review and approval of the submitted plans by the Sanitarian (please allow for a **minimum** of 10 working days for LCDPH review).

If you should have any further questions regarding this matter, please do not hesitate to contact me at (517) 552-6859.

Sincerely,

Beau Forgetté, REHS
Environmental Sanitarian
